All our houses are built to platinum level standards and cater for all levels of physical support needs, including very high.

Orion Care's view on care is founded in sense of purpose and independence in life. Living independently means having your own space and managing your own household. People live together sharing a beautiful, purpose built house with other people who share the same ideas and values in life. This makes the place where one lives a home.

We create opportunities where you shape your own life, where you make choices about your own household and standards and make it your Home!

The houses we build are designed in a way that our people are able to move freely inside the house and outside. We are using technology to work for you.

Our participant's opinions on life, housing values and standards determine their "lifestyle". We welcome you to create a lifestyle, live with people you get along well with and choose your own care when and where you need it.

Living in a safe environment with overnight support if needed gives our people their independence, while maintaining their safety.

LIVE LIFE TO THE FULLEST— IN AN ENVIRONMENT THAT MAKES IT POSSIBLE!

Who is eligible

If you have Specialist Disability Accommodation in your NDIS plan, you can apply. If you need it and it not there, you can discuss with your support coordinator or ask our friendly team to help you.

House Rent/fee

The cost is set by the NDIS. If it is in your plan then your funding should be appropriate. Please ask our friendly staff for further details.

Privacy

Absolute privacy is what we offer. Each suite has it's own bathroom. You will get your own access key.

Supports

You can get supports from your preferred support providers. If you wish to get supports from us, please contact us. We are registered to provide a range of supports. We have an excellent team of support workers and allied health therapists who share our vision of building abilities and sense of purpose and independence in life, for our participants.

How to apply

Just call the number on back of this flyer or email us. New homes are becoming available all the time so you will not have to wait long.
